

Wireless Media is a dynamic, innovative IT company. We design and develop our own web and mobile IT solutions, and partner with some of the most recognizable mobile brands and leading telecoms, in the region and worldwide. Our company culture encourages creativity and promotes leadership, entrepreneurship and audacity.

We have a job opening for the position of

C# Developer

We are seeking experienced and motivated C# developer to join our team. C# developers build innovative multi-tier web applications that serve multiple platforms such as web, mobile, tablets, TVs and beyond.

You will be working in a startup-like Agile environment, interacting on a daily basis with the Project Manager and designers and reporting to Team Leader. You will be engaging with coding, testing, correcting and documenting applications from supplied specifications, using agreed standards and tools.

You need to have:

- Excellent knowledge of .NET framework and related technologies
- Detailed knowledge of HTTP protocol inner working and Web applications architecture
- Experience with building Web apps using ASP.NET technology
- Hands-on experience with ASP.MVC, Entity Framework and NHibernate frameworks
- Experience with ASP.NET view engines (WebForms, Razor)
- Ability to understand existing code to modify it to add new features

It will be considered advantage if you have

- Work experience in formal Agile environment
- Knowledge of JavaScript and JQuery
- Familiarity with XML and XSLT

In return we offer:

- Full-time employment and competitive salary
- An opportunity to take part in challenging, cutting-edge projects
- Development and career path with excellent career prospects
- Long term job security
- Very attractive work environment in Belgrade, at the prime location

We will contact shortlisted candidates only.
