

We are looking to hire a new colleague who would join our team

Java Developer

You should have communicative and open-minded personality (knowledge of English, both written and verbal, is a plus). Also, you need to be able and willing to learn.

As for technical skills, we require knowledge in the following areas:

Required skills

- Good knowledge of Spring framework and server side Java development
- Good knowledge of object oriented design
- Knowledge of web technologies (HTML, CSS, Javascript, JQuery)
- Proficiency in relational database systems (MySQL / MariaDB preferred)
- Good command of written and spoken English

Personal characteristics

- Collaborative attitude and team spirit
- Strong organizational skills to juggle multiple tasks within the constraints of timelines
- Highly reliable and self-organized working attitude
- Strong analytical and problem-solving capabilities
- Eager for professional growth
- Excellent interpersonal and written/verbal communication skills

Duties:

- Development of new / maintenance of existing complex Web applications using Java with Spring framework
- Understanding client requirements / making reliable development estimates
- Troubleshooting operational issues
- Coaching younger team members

We are looking for communicative and enthusiastic candidates who are capable of working as a part of a team (19 programmers, 37 employees in total), as well as work independently on individual projects.

We offer:

- Nice and friendly atmosphere in a young and dynamic team of professionals
- Working with respectable clients / companies worldwide
- Attractive salary

- Chance to improve and expand your knowledge
- Modern office in quiet residential location
- Free parking
- Conventions and conferences in and out of country
- Employee gatherings and team building activities
- Game time – ping-pong and refreshments in gaming room

About our company:

WEBCentric was founded in 2005, but it is still a young and very agile company. The main area of our business is Web development, mainly on the foreign markets.

Our main characteristics are creativity, professionalism, reliability and quick response. Even though our development methods and procedures are very formal and well-defined, the overall atmosphere in the company is pleasant and relaxed.

The main product that we offer is the price monitoring service - **Price2Spy**, (<http://www.price2spy.com>), which is continually developed and perfected. It is currently used by over 450 clients worldwide, for whom we monitor more than 44K websites worldwide.
