

We are looking for creative people to join our team on the following position:

Java Software Engineer

Qualified candidates will possess experience with object oriented programming, excellent Java coding skills, experience with web application development and verbal/written communication skills. Candidate will work on an extremely interesting project that combines top technologies.

1 We take good care of our people, this is what we offer:

- Extremely interesting projects
- Skilled team mates with diverse backgrounds and interests
- Casual and relaxed, yet professional working environment
- Flexible working hours and a steady job
- Career, personal development and more

2 But we set the bar high, here is what we expect:

- At least 3 years of experience with Java technologies and OO programming
- Experience with relational database management systems and SQL
- Writing high quality code
- Documenting code in accordance with standards
- Producing functional UI and practical solutions
- Experience with source control systems (Git, SVN, etc.)
- Passion and initiative for continual learning about new technologies and development approaches
- Excellent verbal and written communication skills in English

Following skills will be considered an advantage:

- Experience with Javascript, jQuery, ExtJs, Ajax, HTML, CSS
- Experience with Agile/Scrum methodologies
- Strong Linux OS experience
- Knowledge of REST Web services
- Experience with developing large-scale server applications
- Experience with NoSQL databases

If you are interested in this position and you have the required qualifications, please send your CV via email to posao@pstech.rs. Please note that due to large number of applications we receive, we will only contact those candidates that are selected for an interview. Thank you.
