PSTech is a software development company from Belgrade, Serbia. We are constantly growing and expanding and our 250+ engineers live and breathe technology every day. PSTech combines knowledge, experience and personal skills with top-notch technologies and delivers positive change and advanceement. We are committed to building a world-class technology company where engineers love to work.

We are looking for creative people to join our team on the following position:

Senior PHP Software Engineer

Qualified candidates will possess experience with object oriented programming, excellent PHP coding, strong experience with PHP development environment and best practices, web application development, database design and verbal/written communication skills. Engineer will be member of PSTech's Business systems & solutions team and will be responsible for development and customizations in PHP language. Understanding the system and how client uses the system is expected.

Other responsibilities may include:
- Work as software engineer
- Design/Architecture of business solutions
- Participate in writing proposals by providing accurate technical information
- Organizing demos for potential clients if needed

We take good care of our people, this is what we offer:
- Extremely interesting projects
- Skilled team mates with diverse backgrounds and interests
- Casual and relaxed, yet professional working environment
- Flexible working hours and a steady job
- Career, personal development and more

But we set the bar high, here is what we expect:
- Bachelor's degree in Computer Science or related field
- 5+ years of experience with PHP programming
- Proven experience with Zend or Symfony framework
- Experience DB design and SQL
- Object Oriented Analysis and Design techniques
- HTML, CSS, java script

Personality
- Able to provide high quality work results without direct supervision
- Self-motivated
- Think out of the box (creative and find ways to look for solution)
- Team player
- Can switch from one task to another without much difficulty
- Ready to accept last minute requirements change when necessary
- Good communication skills

Following skills will be considered an advantage:

- Experience with source control systems (SVN, Clear Case, CVS ...)
- Experience with project work and delivery
- Experience with Linux OS
- Experience with CRM business solutions
- Knowledge of Apache and MySQL Server administration

If you are interested in this position and you have the required qualifications, please send your CV via email to posao@pstech.rs. Please note that due to large number of applications we receive, we will only contact those candidates that are selected for an interview. Thank you.
