

**ComTrade Group** is a regional leader in Information Technologies with two main sectors: IT Solutions and Services (ITSS) and distribution (CT Computers). ITSS domains are implementation of complete ICT Solutions and Software Engineering, while CT Computers is a distributor of IT and communication equipment. Company is focused on the most prestigious markets in Europe and the USA. Our team is constantly growing and now after 20 years, about two-thirds of employees in ComTrade are software engineers.

ComTrade is aware of the employee's contribution in making creative ideas and solutions. Because success doesn't come by itself - success is built by people.

Be successful – join the ComTrade team!

We are looking for talented professionals who will use their knowledge and creativity to the benefit of our clients. We are looking for:
