

Wireless Media is a dynamic, innovative IT company. We design and develop our own web and mobile IT solutions, and partner with some of the most recognizable mobile brands and leading telecoms, in the region and worldwide. Our company culture encourages creativity and promotes leadership, entrepreneurship and audacity.

We have a job opening for the position of

Front End Developer

You have already worked on web based projects and have teamwork experience. From the get-go you will be motivated to learn new technologies, learn about wide array of projects, engage colleagues in other development teams, follow technical developments within your area of expertise, apply new knowledge to everyday tasks and share that knowledge with colleagues.

Skills:

- Knowledge of JavaScript frameworks (jQuery, Angular, etc.)
- Knowledge of Twitter Bootstrap or Zurb Foundation
- Experience translating wireframes into semantically correct web templates
- Knowledge of responsive and adaptive design principles and translating into fluid and responsive templates
- Strong working knowledge developing cross platform/browser compatibility (IE, Firefox, Safari, Opera, etc.) for dynamic web applications
- Familiarity with and adherence to web standards and best practices for load time reduction and accessibility
- Knowledge of SEO best practices
- Effective verbal and written communication skills and the ability to interact professionally with a diverse group of people
- Familiarity with any server-side programming language is a plus
- Loves logic and problem solving!

What we'd like to see:

- Experience in front-end web development
- Knowledge of XHTML, HTML5, CSS3, JavaScript
- Excellent verbal/written communication skills and strong time management and problem solving capabilities
- Proven debugging and troubleshooting skills

In return we offer:

- Full time employment, stable job and competitive salary
- An opportunity to work with the latest web technologies and take part in complex, innovative projects
- Agile driven development environment
- Very attractive work environment at the prime location in Belgrade
- Opportunity to work with cooperative and friendly team members
- Clear development and career path

We will contact shortlisted candidates only.
