

Wireless Media is a dynamic, innovative IT company. We design and develop our own web and mobile IT solutions, and partner with some of the most recognizable mobile brands and leading telecoms, in the region and worldwide. Our company culture encourages creativity and promotes leadership, entrepreneurship and audacity.

We have a job opening for the position of

Senior iOS Developer

To join our team dedicated to WM App Builder – an internationally recognized web based tool for fast and simple creation and lifecycle management of native mobile apps for iOS, Android and Windows Phone. WM App Builder is a highly developed product with two years in the making, and is currently establishing itself in multiple markets around the world.

You will be working in a startup-like Agile environment, interacting on a daily basis with the Project Manager and designers and reporting to Team Leader. You will be engaging with coding, testing, correcting and documenting mobile applications from supplied specifications, using agreed standards and tools.

You need to have:

- Problem solving skills, curious personality and keen interest in following emerging technologies
- A portfolio of iOS applications
- At least 2 years general software development experience of which at least 1 year working with iOS
- Detailed knowledge of Objective-C

It will be considered a distinct advantage if you have:

- Work experience in formal Agile environment
- Experience with another mobile platform, such as Android and/or Windows Phone

In return we offer:

- Full-time employment and competitive salary
- An opportunity to take part in challenging, cutting-edge projects
- Development and career path with excellent career prospects
- Long term job security
- Very attractive work environment in Belgrade, at the prime location

We will contact shortlisted candidates only.
