Manpower is a worldwide innovative forerunner and leader in the field of employment through the provision of services and workforce management solutions for clients and helping people in their career development with the aim of understanding the needs of the clients and candidates in the changing world of work.

On behalf of our client, an international software development company in Novi Sad, Manpower Serbia is searching for a motivated candidate to take the challenge and to successfully fulfil the position of:

API technical writer

Location: Novi Sad

Job Description:

✓ Take complex information and communicate it clearly, concisely and accurately for multiple use cases

✓ Read, write, test, and explain the purpose of sample code

✓ Produce, organize and maintain high quality technical user facing documentation

✓ Design and organize documentation sets for new APIs and developer products

✓ Manage complex documentation projects

✓ Validate, test, review, and edit new and existing customer documentation for quality

✓ Support clients (developers/systems integrators/etc) in their use of our API for a variety of integration applications.

✓ Work with internal teams to obtain an in-depth understanding of the products and documentation requirements.

✓ Establish a process to incorporate product updates and product enhancements into existing product documentation.

✓ Assist with analyzing internal and external projects and opportunities.

✓ Work closely with product management and development

Candidate Profile:

✓ Experience in developing/writing excellent technical documentation (APIs, SDKs, web technologies, security, or Integration guides based on user stories)

✓ Ability to grasp and communicate technical and functional concepts quickly and effectively

✓ Team player adaptable to a new environment, positive and flexible attitude

✓ Excellent communication skills and fluency in spoken and written English

Desired skills:

✓ Experience creating API documentation with industry leading tools such as Swagger, Apiary, etc.

Company offers:

✓ Challenging project, utilizing latest technologies to build our own product

✓ Opportunity for personal development

✓ Positive team culture that inspires your best work

✓ Part of a team of open-minded and motivated experts

✓ Competitive salary with flexible work hours
