JavaScript Software Developer

Endava is a privately owned IT services company with over 3,400 employees and offices in New York, Atlanta, New Jersey, London and Frankfurt and 6 delivery centers across Romania, Moldova, Macedonia, and Serbia. We strongly believe that our ability to deliver quality work while adapting easily and quickly to the evolving needs of our customers and people ensures our success. To support our core purpose of enabling our people to be the best that they can be, we invest in career development and building a strong learning culture within Endava.

Project description:

You will be a part of a team that works with one of the major ICT companies in the world. As a Java/JavaScript Software Developer, you will be responsible for designing, developing, testing and maintaining code for our customer's existing and future products.

Job responsibilities:

Qualified candidates will have Java and front-end software development duties as part of a Belgrade team that consists of 15+ developers, QEs and integration specialists:

- Gathering and analyzing requirements
- Developing and testing solutions in Java, JavaScript and related frameworks based on customer's requirements
- Estimating tasks and participating in daily team sync-ups
- Participating in code reviews
- Daily communication with the client through emails, phone sync-ups etc.
- Collaborating with the QA engineering team to ensure the delivered code meets the client's standards

Mandatory skills:

- Solid experience with Java, JavaScript and related technologies
- Some knowledge of one of the popular JavaScript frameworks (Backbone.js, Angular.js, Ember.js…)
- Understanding of Web protocols and technologies, RESTful Web services
- Understanding of common design/architectural patterns and engineering practices
- Familiarity with HTML5 and CSS3
- Experience with one source code versioning systems (Git, Perforce, SVN…)
- Great verbal and written communication skills in English

Desirable skills:

- Solid understanding of complete product development cycle
- Strong analytical skills, systematic approach, and self-reliant in fulfilling daily duties
- Experience with Continuous Integration (Jenkins, etc.)
- Familiarity with Agile/Scrum methodologies

If you are interested in this position and you have the required qualifications, please send your CV via email to jobs.belgrade@endava.com Please note that due to large number of applications we receive, we will only contact those candidates that are selected for an interview. Thank you.
