With over 15 years of experience in the area of software development we have established long-term relationships with our clients. They trust our decisions and value our propositions. During the last two years we have grown from 140 to over 260 great people and we keep going. Join one of the biggest software development companies in the region and become a member of our daily-growing team.

Our clients are world leaders in their business areas. Our projects include object oriented software development, database design and mobile platforms. Also, our functional and performance testing expertise is highly valued by our clients. Our core values: partnership, innovation and respect, represent our business approach so as our employee focus.

Experienced Java Developers willing to learn Android

PSTech has one of the most skilled and largest Android development teams in Belgrade. Based on our experience it has been proven that senior Java engineers turn out to be among the best Android developers. That is why we want to invest into experienced Java engineers willing to learn and switch to Android development. Care to join us?

You will be a part of a team that works with one of the major ICT companies in the world. You will need to be able to work in an agile development process and employ best-in-class development practices, such as constant code reviews, design patterns, refactoring, version control, unit tests and continuous integration. Additionally, you'll need to be detail-oriented and thorough in your approach to development, but flexible enough to work within time and product constraints.

We take good care of our people, this is what we offer:

- Highly skilled Android engineers as mentors
- Participation in World class Android projects
- Casual and relaxed, yet professional working environment
- Career and personal development, and more

Desired Skills and Experience:

- At least 3 years of experience with Java technologies and OO programming
- Writing high quality code and documenting the code in accordance with standards and guidelines
- Experience with source control systems (Git, SVN, etc.)
- Passion and initiative for continual learning about new technologies and development approaches
- Excellent verbal and written communication skills in English
- Ability to travel abroad

Following skills will be considered as an advantage:

- Some experience and/or knowledge of Android application development
- Experience with Agile/Scrum methodologies
- Good Linux skills
- Experience with following: jUnit, Jenkins, Gerrit, Maven, Ant

If you are interested in this position and you have the required qualifications, please send your CV via email to posao@pstech.rs. Please note that due to large number of applications we receive, we will only contact those candidates that are selected for an interview. Thank you.
