

With over 15 years of experience in the area of software development we have established long-term relationships with our clients. They trust our decisions and value our propositions. During the last two years we have grown from 140 to over 260 great people and we keep going. Join one of the biggest software development companies in the region and become a member of our daily-growing team.

Our clients are world leaders in their business areas. Our projects include object oriented software development, database design and mobile platforms. Also, our functional and performance testing expertise is highly valued by our clients. Our core values: partnership, innovation and respect, represent our business approach so as our employee focus.

Due to strong demand for our services, we are looking for:

## **Java AWS Developer**

You will be a part of a team that works for one of the major ICT companies in the world. Qualified candidates will possess significant experience in building scalable solutions using Amazon AWS, excellent Java coding skills and verbal/written communication skills. The candidate will work on an extremely interesting cloud based enterprise project.

### **We take good care of our people, this is what we offer:**

- Participate in projects where your opinion will be valued
- Enjoy the pleasant working environment, have fun and play
- Take full ownership of your career and benefit from our development opportunities

### **But we set the bar high, here is what we expect:**

- At least 2 years of experience with Java technologies and OO programming
- At least 1 years of experience working with Amazon AWS (API-s, console)
- Knowledge of Linux (including bash scripting)
- Knowledge of SSH, SSL
- Experience with highly scalable architectures
- Documenting code in accordance with standards
- Experience with Agile/Scrum methodologies
- Experience with source control systems (Git, SVN, Perforce, etc.)
- Passion and initiative for continual learning about new technologies and development approaches
- Excellent verbal and written communication skills in English

### **Following skills will be considered an advantage:**

- Experience with CQ will be considered an advantage
- Experience with Ruby and Chef will be considered an advantage
- Experience with NoSQL databases (MongoDB)
- Proven experience with developing large-scale server applications

If you are interested in this position and you have the required qualifications, please send your CV via email to [posao@pstech.rs](mailto:posao@pstech.rs). Please note that due to large number of applications we receive, we will only contact those candidates that are selected for an interview. Thank you.
