

*ManpowerGroup is a worldwide innovative forerunner and leader in the field of employment through the provision of services and workforce management solutions for clients and helping people in their career development with the aim of understanding the needs of the clients and candidates in the changing world of work.*

On behalf of our client, leading IT company in developing Big Data technologies with focus on real estate, vehicle and travel markets with over 30 millions monthly users, ManpowerGroup Serbia is searching for an independent developer capable of delivering quality code to take the challenge and to successfully fill the position of:

## Java Developer

Location: Belgrade

### Job description:

- Join company's Engineering team, in charge of their Platform for API Services
- Help retain company's big data advantages, such as our 6 million car listings, with the best sorting, market and user traffic analytics data, gathered from years of running some of the biggest Automotive search sites in the US. Be a part of a fast-paced development team and deliver end-to-end solution involving development, continuous integration, deployment etc.
- Be part of an agile team;

### Candidate profile:

- BSc / MS in Computer Science (ETF/PMF/FON) or relevant studies
- Strong Computer Science background (algorithms, data structures, software design)
- Experience with JVM stack (Java, Scala)
- Experience in development on Unix/Linux platform

#### Desired skills:

- A keen interest in learning and applying new technologies
- An in-depth knowledge of design and architectural patterns which enables you to make the right technical decisions
- Experience with TDD/BDD
- Taking responsibility for others, helping them and guiding them if necessary
- Your development skills are valued more than the length of your professional experience
- Functional programming professional experience

### Company offers:

- Chance of working with a top-notch, experienced technical team spread across Serbia, the USA and Ukraine
- Flexible working hours and relaxed working atmosphere
- Many opportunities to acquire new technical skills and advance your career, as well as the opportunity to work with the latest technologies
- Free lunches daily, team activities, weekly recreation and seasonal team-building trips
- MacBook for every employee
