

PSTech is a software development company from Belgrade, Serbia. We are constantly growing and expanding and our 240+ engineers live and breathe technology every day. PSTech combines knowledge, experience and personal skills with top-notch technologies and delivers positive change and advancement. We are committed to building a world class technology company where engineers love to work.

We are looking for folks to join our team on the following position:

Android Software Engineer – Technical Lead

You will be a part of a new team that will work with one of the major ICT companies in the world. As an Android Software Engineer – Technical Lead you will have to promote and display initiative and innovation, have strong research practices and deliver high quality software, on time. You will need to be able to work in an agile development process and employ best-in-class development practices, such as version control, bug tracking, code reviews, design patterns, refactoring and unit tests. Additionally, you'll need to be detail-oriented and thorough in your approach to research methodology, but flexible enough to work within time and product constraints.

We take good care of our people, this is what we offer:

- Extremely interesting projects
- Skilled team mates with diverse backgrounds and interests
- Participation in World class Android projects
- Casual and relaxed, yet professional working environment
- Flexible working hours and a steady job
- Career and personal development, and more

But we set the bar high, here is what we expect:

- 3 or more years of experience of hands-on application development based on (latest) Android SDK
- Hands-on experience with Android application development
- 3 or more years of experience with OO languages (Java, C++)
- Experience with Agile/Scrum methodologies
- Passion and initiative for continual learning about new technologies and approaches
- Good verbal and written communication skills in English
- Ability to travel abroad

Following skills will be considered an advantage:

- Experience with development for mobile devices on platforms other than Android
- Knowledge of Web services: REST, SOAP
- Experience with large-scale java server applications

If you are interested in this position and you have the required qualifications, please send your CV via email to posao@pstech.rs. Please note that due to large number of applications we receive, we will only contact those candidates that are selected for an interview. Thank you.
