

With over 15 years of experience in the area of software development we have established long-term relationships with our clients. They trust our decisions and value our propositions. During the last two years we have grown from 140 to around 300 great people and we keep going. Join one of the biggest software development companies in the region and become a member of our daily-growing team.

Our clients are world leaders in their business areas. Our projects include object oriented software development, database design and mobile platforms. Also, our functional and performance testing expertise is highly valued by our clients. Our core values: partnership, innovation and respect, represent our business approach so as our employee focus.

Due to strong demand for our services, we are looking for:

PHP Software Engineer

As a PHP Software Engineer your job will be to develop solutions that will be used by our clients in their everyday work. Members of this team work on the development of CRM, ERP and DMS solutions and, apart from being exquisite engineers, it is important that they are constantly aware of the business logic that is in the basics of our products.

Other responsibilities may include:

- Design/Architecture of business solutions
- Participate in writing proposals by providing accurate technical information
- If needed, organizing demos for potential clients

We take good care of our people, this is what we offer:

- Involvement in the agile development process
- Participate in projects where your opinion will be valued
- Enjoy the pleasant working environment, have fun and play
- Take full ownership of your career and benefit from our development opportunities

But we set the bar high, here is what we expect:

- Bachelor's degree in Computer Science or related field
- 2+ years of experience with PHP programming
- Proven experience with PHP frameworks
- Experience in DB design and SQL
- Object Oriented Analysis and Design techniques
- HTML, CSS, javascript

Personality

- Able to provide high quality work results without direct supervision
- Self-motivated
- Think out of the box (creative and find ways to look for solution)
- Team player
- Can switch from one task to another without much difficulty
- Ready to accept last minute requirements change when necessary

- Good communication skills

Following skills will be considered an advantage:

- Experience with source control systems
- Experience with project work and delivery
- Experience with Linux OS
- Experience with CRM business solutions
- Knowledge of Apache and MySQL Server administration

If you are interested in this position and you have the required qualifications, please send your CV via email to posao@pstech.rs. Please note that due to large number of applications we receive, we will only contact those candidates that are selected for an interview. Thank you.
