

pstech

PSTech is a company in the field of software development in Serbia, and one of the largest in South-East Europe. We were founded in 1996 and we maintained steady business growth ever since. Our team consists of over 350 experts engaged in development of consumer and business software solutions and products. Our engineers' comprehensive technical background, passion for software development, and dedication to highest levels of client satisfaction enable and support numerous long-term partnerships with our clients.

Due to strong demand for our services we are looking for:

Test Automation Engineer

We are looking for a Test Automation Engineer that will ensure highest quality of software products visible to millions of users world-wide. Successful candidate will be able to demonstrate excellent communication skills, expert knowledge of automated testing, and good understanding of Agile/Scrum methodologies. Most importantly he/she will appreciate true value of teamwork.

We take good care of our people, this is what we offer:

- Exceptionally interesting projects for large international IT companies
- Skilled team members with diverse backgrounds and interests
- Casual and relaxed yet professional work environment
- Flexible working hours, great culture, steady job
- Career / personal development and more

But we set the bar high, here is what we expect:

- 2+ years of experience with automated testing software / QA
- Full understanding of software lifecycle and all phases of QA process
- Experience with test automation tools / frameworks (JUnit, TestNG, JMeter, Selenium...) and continuous integration (Jenkins/Hudson...)
- Passion for constant adoption of new tools and methodologies
- Proven logic, testing, troubleshooting and analytic skills
- Good verbal and written communication in English

The Following skills will be considered an advantage:

- Knowledge of Java, scripting languages
- Understand common design patterns and best engineering practices
- Strong analytical skills, systematic approach, and self-reliant in fulfilling daily duties

- Experience in writing product documentation, test cases, user stories...
- Analyzing results of test execution and compiling test reports
- Familiarity with Agile/Scrum methodologies

If you are interested in this position in Belgrade, Serbia and you have the required qualifications, please send your CV to posao@pstech.rs. Please note that due to large number of applications, we will only contact those candidates that are selected for an interview. Thank you.
