High Tech Engineering Center – HTEC

www.htec.rs

High Tech Engineering Center is an IT and engineering company with headquarters in Belgrade, Serbia and development offices in Belgrade and Nis.

We are a fast growing company with great pool of international clients and partners. If you are a creative and motivated software engineer, passionate about continuous improvement, looking for interesting, challenging and innovative projects in friendly but professional atmosphere, you are welcome to apply for one of currently open positions, either in Belgrade or in Nis.

We are looking to expand our development teams with:
Mobile Application Developers (iOS and Android)

Company is only as good as the people it keeps, and we do care for our people, so this is what we offer:

- Extremely interesting and innovative projects for international partners and clients ranging from innovative start-ups to some of the leading global IT companies
- Friendly but professional atmosphere
- Flexible terms and working hours
- Possibility for career and personal development
- Concurrent compensation package

Because we rely on our team, we set high standards and choose carefully. An ideal candidate should have:

- 2+ years of hands-on experience with development of mobile applications (IOS and/or Android)
- Knowledge of Web Services (SOAP/REST, XML/JSON)
- Understanding of Agile and Scrum Methodologies
- Knowledge of Test Driven Development is a plus
- 2+ apps published on GooglePay/AppStore

If you would like to become a part of a winning team, and enjoy your work time and if you believe that you have all of the required qualities, don't hesitate to send us your CV and application letter in English to the following e-mail: jobs@htec.rs
