

## GRANIITY VENTURES

Granity Ventures focuses on developing new technology so that people can build and create more. Unlocking peoples potential with collaborative and advanced software tools are at the core of what we do. Our purpose is to enable a generational community of builders and doers.

### **Front end and back end web developer**

Looking for a developer with experience on front end and back end web development.

- Speaks English
- Experience preferred but not necessary.
- Will be interested in projects completed if lacking years of experience
