

Production Editor

Organization Overview

MDPI is an academic open access publisher based in Basel, Switzerland, and was initially founded in 1996 to collect and preserve rare chemical research samples. To support the samples project, MDPI started the journal *Molecules* the same year. Since 1996, MDPI has grown into a publishing house with over 200 journals and further offices in Beijing and Wuhan (China), Barcelona (Spain) and Belgrade (Serbia). MDPI is backed by over 43,100 academic editors and scientists worldwide.

Job Summary

Once accepted for publication, articles must be prepared to company and industry standards in PDF, XML and HTML formats. This work is carried out by a production team, using custom software developed by MDPI.
