

Job Title: QA Coordinator

Key responsibilities:

- Test ads or tags according to checklist or test plan
- Test thoroughly, not skipping any relevant parts of the product.
- Test efficiently, not wasting time with irrelevant/redundant testing.
- Meet test deadlines.
- Negotiate unrealistic deadlines to determine compromise between complete and fast testing.
- Report clear, reproducible bugs.
- Maintain accurate records of all testing performed.
- Assist creative team with reproducing errors in ads

Qualifications:

- Conversational and written fluency in English
- Ability to explain technical issues in plain English
- Basic technical understanding of ad functionality (HTML, XML, ActionScript, JavaScript, etc.). You don't need to be able to code websites (though it helps) but you do need to be able to view and interpret page source and use various web debugger tools such as a DOM Inspector, an HTTP debugging proxy, and others
- Ability to quickly learn new software and platforms, as proficiency in Sizmek platform will be necessary.
- Ability to problem solve, act proactively, and make good judgment calls.
- Familiarity with various mobile devices and test strategies a plus.
- Familiarity with online advertising industry and understanding of campaign process is a plus.

Please submit your CV (and optionally cover letter) in English to: [here](#)
