**Why work at Cloud Horizon?**
Cloud Horizon is a Montreal-based software development studio with an office in Belgrade. We work exclusively with innovative North American startups that are solving interesting and challenging problems.

**Job Description**
We are looking for an experienced QA engineer to join our growing team in Belgrade. Your job will be to develop QA processes for our projects and to do extensive testing of the software developed by our team. If you want to work with a young and dynamic team that constantly experiments with new and better ways of building products, then this position is for you!

**Key responsibilities**
- Managing QA processes in the company
- Define Test scenarios and Test cases to ensure quality of the teams deliverables
- Testing web and mobile applications
- Developing automated testing scripts

**Skills & Requirements**
- 2+ years of experience doing software QA
- Good understanding of web and mobile technologies
- Quick learner and creative problem solver who can work independently with little supervision and as part of a team
- Proven ability to write and execute test cases against product features and functionality
- Experience with both white box and black box testing
- Experience testing web and mobile products

**Benefits**
- A competitive salary with regular performance bonuses
- Awesome team and great working atmosphere
- Flexible working hours
- A wide selection of international coffee and tea
- And more
