

QA Tester (m/f) - Corussoft d.o.o.

For more than 20 years we have been designing and implementing individual business software, as well as web and mobile applications for small and large companies.

As the market leader for software solutions in the trade fair industry, we stand for innovative online and mobile applications.

With offices in Berlin and Mostar, we are always looking for smart and energetic team members.

If you recognize yourself in the following descriptions and want to be a part of our growing and developing team, sign up!

We're looking for a QA tester (mid level experience) to join our team.

Requirements / Knowledge base

- 1-2 years of IT quality assurance experience
- Detailed knowledge of testing responsibilities and processes within the Software Development Lifecycle (Organizing testing process; Writing test cases; Manual test execution; Review of test cases against requirements, ability to communicate to stakeholders and development teams)
- Experience in coordinating QA operations with the production team and other departments
- Fluent in English and a good communicator, both written and spoken
- Strive to learn automated testing and the use Selenium / Cypress (any previous experience with these tools is a plus)
- Interest in computer science, software development, and eagerness to learn

Main tasks and responsibilities

- Design and develop test strategies and test cases
- Ensure that the final solution meets business objectives and customer requirements

- Work with stakeholders, business analysts and the development team to understand the business and technical requirements
- Report on analysis and test activities
- Estimate, prioritize, plan and coordinate testing activities
- Work closely with developers to integrate testing into the development and build processes
- Stay up-to-date with new testing tools and test strategies

What we offer you:

- To become part of a motivating environment in which you can develop and acquire knowledge and skills
- Dynamic and professional work environment where ideas are highly valued
- Fixed / permanent contract (after trial period)
- Paid certification (we follow your needs for education and development)
