

With over 15 years of experience in the area of software development we have established long-term relationships with our clients. They trust our decisions and value our propositions. During the last two years we have grown from 140 to over 290 great people and we keep going. Join one of the biggest software development companies in the region and become a member of our daily-growing team.

Our clients are world leaders in their business areas. Our projects include object oriented software development, database design and mobile platforms. Also, our functional and performance testing expertise is highly valued by our clients. Our core values: partnership, innovation and respect, represent our business approach so as our employee focus.

Due to strong demand for our services, we are looking for:

### **Software Quality Assurance Engineer – several positions**

You will part of the team that will work with one of the major ICT companies in the world. As a Quality Assurance Engineer you will be responsible for improving the quality of the product by promoting and displaying initiative and innovation and have strong research practices to evaluate and improve the process and tools used to secure the quality. You will need to be able to work in an agile development process and employ best-in-class testing practices.

#### **We take good care of our people, this is what we offer:**

- Participate in projects where your opinion will be valued
- Enjoy a pleasant working environment, have fun and play
- Take full ownership of your career and benefit from our development opportunities

#### **But we set the bar high, here is what we expect:**

- 1+ years related experience as a software quality assurance engineer (or similar)
- Knowledge of OOP is a must (preferably Java)
- Scripting languages (e.g. Python)
- Strong technical background
- Excellent understanding of software development lifecycle and QA cycles
- Familiar with Scrum methodology and framework
- Good knowledge of English language
- Team work

#### **Following skills will be considered an advantage:**

- Experience with Automation Tools (JUnit, TestNG, Selenium, etc.)
- Linux experience (scripting) will be considered a plus
- Working with Jenkins or other CI tools will be considered an advantage

If you are interested in this position and you have the required qualifications, please send your CV via email to [posao@pstech.rs](mailto:posao@pstech.rs). Please note that due to large number of applications we receive, we will only contact those candidates that are selected for an interview. Thank you.
