## Senior Application Developer

### Job Description

- Developing scalable Business Support System for online advertising services
- Developing new cutting-edge features for the online advertising business
- Integrating state-of-the-art technologies from market leaders in ad delivering (API)
- Developing interfaces for existing applications, e.g. ad server and web-analysis tools

### Requirements

- You have successfully completed your studies of software engineering or similar field
- Minimum 2 years' working experience as a web application developer
- Your excellent knowledge of PHP (object-oriented) and experience handling MySQL, (x) HTML, CSS and JavaScript are excellent
- You possess very good skills with Ajax, jQuery, SVN, Smarty or other template engines
- Your analytical skills and ability to abstract are in high gear
- You are a self-motivated person and would enjoy being part of a dynamic development team in a successful and stable tech company
- Team spirit is very important to us, so we expect a strong team player to join us
- Your English is fluent

### What We Offer

- A great team of experienced software engineers and professionals for productive exchange and inspiration
- An exciting and trend-setting challenge in a high-growth company
- Very nice location and working atmosphere
- Many opportunities to master your skills and explore your professional goals

Performance Technologies SRB d.o.o. is part of the Performance Media Group headquartered in Hamburg, Germany. The Group has been founded in 2005 and has been expanding rapidly over the last years – nationally, and internationally, as with the opening of Performance Technologies in Belgrade 2010. Here we deliver professional software development services for our online agency, as well as for renowned publishers and advertisers such as American Express, XING, and Jack Daniel's.

Join our team in our modern office right in the heart of Belgrade, and grow with us!
