About Company:

MAS CTH Onlus: Mohamed Aden Sheikh Children Teaching Hospital is a pediatric Hospital in Hargeisa, Somaliland. Since the beginning, the project has been thought and designed in collaboration with the Somaliland Ministry of Health and other relevant local authorities.

Hospital aims to collaborate with the Group Hospital in order to be a second level medical facility for children of the whole Somaliland. Hospital is located behind the Somaliland Ministry of Health building and next to the Group Hospital (local public civil hospital). On the 26th of January 2013 hospital has been opened to the clinical activities.

Another important activity for the hospital is teaching which includes frontal lessons and training on the job; training program is developed and managed by the University of Turin (directly with its own personnel) in collaboration with the University of Hargeisa.
