

Hello, we're Vast - a leading big data technology provider for the Automotive, Real Estate, and Travel industries. We produce data-rich products for Fortune 500 companies (and our own ventures) that help consumers make significant purchases like cars, houses and vacations.

Some of our work includes AOL Autos and Yahoo Autos (consumer marketplace sites for searching used cars), Carstory (a new iOS app for auto salespeople), Homecircle (a members-only real estate site) and The Southwest Getaway Finder (a consumer flight search site).

We are looking for a:

## **Senior JavaScript Developer**

to join our team in Belgrade.

### **You need to have:**

- At least 2 years experience in web application development
- Proficiency in JavaScript, HTML5 & CSS3
- Knowledge of JQuery, Backbone.js, Handlebars.js, Underscore.js/Lo-Dash
- Experience with client-side web performance optimizations
- Experience with cross-browser implementations
- Knowledge of either PHP/Zend Framework or Node.js
- Experience in Unit testing

Our company is growing fast, but the most exciting work is yet to come. We need you for that.

Please send your resume, a cover letter and a URL that shows a sample of your work .

Deadline for applications: **03.04.2013.**
