With over 15 years of experience in the area of software development we have established long-term relationships with our clients. They trust our decisions and value our propositions. During the last two years we have grown from 140 to over 290 great people and we keep going. Join one of the biggest software development companies in the region and become a member of our daily-growing team.

Our clients are world leaders in their business areas. Our projects include object oriented software development, database design and mobile platforms. Also, our functional and performance testing expertise is highly valued by our clients. Our core values: partnership, innovation and respect, represent our business approach so as our employee focus.

Due to strong demand for our services, we are looking for:

Senior Java Web Developer – several positions

You will be a part of a team that works on a project for one of our clients. Qualified candidates will possess significant experience in building scalable web applications using Spring and/or Java EE, excellent Java coding skills and verbal/written communication skills. The candidate will work on an extremely interesting enterprise product for a client who has established itself as a leader in this field.

We take good care of our people, this is what we offer:

- Participate in projects where your opinion will be valued
- Enjoy the pleasant working environment, have fun and play
- Take full ownership of your career and benefit from our development opportunities

But we set the bar high, here is what we expect:

- At least 4 years of experience with Java technologies and OO programming
- At least 1 years of experience working with Spring and/or JavaEE.
- Knowledge of Hibernate and/or other ORM frameworks
- Knowledge of Linux
- Experience with other RDBMS (MySQL, Oracle)
- Experience with highly scalable architecture
- Documenting code in accordance with standards
- Experience with source control systems (Git, SVN, Perforce, etc.)
- Passion and initiative for continual learning about new technologies and development approaches
- Excellent verbal and written communication skills in English

Following skills will be considered an advantage:

- Experience with developing large-scale cloud based server applications
- Experience with NoSQL databases
- Experience with JMS (ActiveMQ)
- Knowledge of JavaScript, CSS, HTML
- Experience with Agile/Scrum methodologies

If you are interested in this position and you have the required qualifications, please send your CV via email to posao@pstech.rs. Please note that due to large number of applications we receive, we will only contact those candidates that are selected for an interview. Thank you.
