

It's open

We are an old bank, established in 1864. We have business in Serbia for 37 years, but still keeping our mind open for new development. We have stayed here in good and bad times. You might be next one to find out how is it to work in a bank that relies on its people, in a bank which believes that people are those who develop its business and take care of its customers. The same way, Societe Generale Serbia provides support to its employees when it comes to their careers and professional growth.
