We create the right technology for Social Media Advertising

As of now we are looking for a

Facebook Ads API Developer

to be part of our professional team in Belgrade.

There are 10 types of people. The ones, who understand the binary code and the ones, who do not.

If you are ONE of those who understand and you want to be part of a...

- great team of experienced software engineers and professionals
- high-growth company in which you can find exciting and trend-setting challenges
- familiar working atmosphere in an open-minded multinational team
- group where you have the opportunity to contribute your own ideas

then YOU are the ONE we are looking for to take over the following tasks:

- Be part of our Facebook Developer team
- Work on the newest Facebook advertising beta features
- Support us in developing our proprietary optimization tool which is used by many famous German brands
- Develop new cutting-edge frontend and backend features
- Connect the API of Facebook and other technology market leaders to our systems

Requirements

Besides the fact that you are who you are, you should fulfill at least the following requirements:

- Minimum 2 years' work experience as a web developer
- Your knowledge of PHP (object-oriented) and experience handling MySQL, (x) HTML, CSS and JavaScript are excellent
- You possess very good skills with Ajax, jQuery, SVN/Git, Smarty or other template engines
- You have knowledge of Software Design Pattern
- Facebook API experience is a plus
