With over 15 years of experience in the area of software development we have established long-term relationships with our clients. They trust our decisions and value our propositions. During the last two years we have grown from 140 to around 300 great people and we keep going. Join one of the biggest software development companies in the region and become a member of our daily-growing team.

Our clients are world leaders in their business areas. Our projects include object oriented software development, database design and mobile platforms. Also, our functional and performance testing expertise is highly valued by our clients. Our core values: partnership, innovation and respect, represent our business approach so as our employee focus.

Due to strong demand for our services, we are looking for:

iOS Software Developer

We are expanding our team of developers already involved in the process of creating best-in-class mobile experience for users. As an iOS developer you will be a part of a team that works for one of the most prominent ICT companies in the domain of mobile device security and management on iOS and Android platforms.

You will work in a vibrant environment and employ advanced development practices. Additionally, you'll need to be detail-oriented and thorough in your approach to development, but flexible enough to work within time and product constraints.

We take good care of our people, this is what we offer:

- Extremely interesting projects
- Skilled team mates with diverse backgrounds and interests
- Casual and relaxed, yet professional working environment
- Flexible working hours and a steady job
- Career, personal development and more

Desired skills and experience:

- At least 2 years of hands-on experience with iOS application development
- Excellent knowledge of Objective-C programming language
- Experience with Cocoa/Cocoa Touch Frameworks
- Object-oriented analysis and design techniques
- Knowledge of Apple software design patterns and MVC
- Good debugging/problem solving abilities
- Documenting code in accordance with established standards
- Hands-on experience with source control systems (Git, SVN, etc.)
- Able to perform and assist within collaborative environments to reach project goals
- Passion and initiative for continual learning about new technologies
- Excellent verbal and written communication skills in English

Following skills will be considered an advantage:

- Experience with Agile/Scrum methodologies
- Experience with Android development
- Continuous integration and automated testing
- Linux OS

If you are interested in this position and you have the required qualifications, please send your CV via email to posao@pstech.rs. Please note that due to large number of applications we receive, we will only contact those candidates that are selected for an interview. Thank you.
