

Think tune your HEART to Joy!

We are a Software Development Company acting as the regional software services company within UNIQA International. As the leading insurance company in Austria and one of the largest insurance groups in Central and Eastern Europe, UNIQA operates in 19 European countries providing safety in a changing world.

Achievements of the IT department in Serbia had been recognized by the Group Headquarters and sTech was formed to render software development services and offer complete IT solutions to UNIQA companies both at the regional and Group levels.

We are providing you with an opportunity to be a part of our continuous success by joining us on the position of a

Junior Software Developer

What You Will Be Doing?

You will be developing, designing and implementing information system modules within one of our six teams.

You will be developing Web applications and other modules (MS Visual Studio), as well as designing a database (MS SQL Server) by using the best practice. You will be a team member engaged in developing core systems for the entire UNIQA Group.

What Do You Need for the Position?

You need to be a final year student or recent graduate in the field of Information Technology and to possess basic programming skills in developing applications with Microsoft development tools (MS Visual Studio C#, ASP.NET; MS SQL Server; jQuery; Ajax, and similar).

You also need to be fluent in English. We are looking for fast learners, who are result-oriented, systematic and dedicated.

What's In It for You?

We are proud of a transparent, truthful, and sincere approach and of our genuinely strong team spirit.

Work in such a setting is not limited to programming only – here you can gain a valuable knowledge of the nature and manner of business operations in a large multi-country system. Our company is a place where you can develop in a long-term period, where you can easily feel the contribution of your dedicated work to achieving long-term corporate goals.

If you want to give your career a new shape within one of the leading insurance groups in Europe, we are looking forward to receiving your application.

Applications should be submitted to the following e-mail address:
jobs@sTech.rs (Subject: Junior Software Developer).

Closing date: March 23rd 2015

We thank all candidates for their interest; however, only short-listed applicants will be contacted.
